Dear **Member of Parliament**

Unfair treatment of student pilots

I am writing to ask for you to take action regarding the unfair treatment of student pilots. Unlike any other person taking a qualification they are not entitled to any form of grant, student loan or bursary. They even have to pay VAT on their training fees.

The result of this is that only students who have the parents with the financial resources available can train to become pilots. This is wholly wrong in a society that prides itself on equality opportunity for other students.

I would ask that you take up this matter for your constituents.

There is a web site with more information, which is www.fairplane.org.uk.

Yours sincerely
